

# Weller Center Presentation "Life Begins" Parent Program

The Weller Health Center is one of the region's primary health education resources for schools and organizations. The Weller Center helps children make healthy life choices through preventive health education.

"Life Begins" is an awareness assembly being offered to all 5<sup>th</sup>-grade students to support and supplement the health curriculum. The presentation focuses on human growth and development where students demonstrate knowledge of the individual differences associated with these changes. Parents of 5<sup>th</sup>-grade students are invited to preview this program.

Thursday, February 2, 2012 (snow date, February 9, 2012)
